

“Right from the start, we had great clarity with rich, full musical sound.”

– Moises Hurtado, In Touch AV

## SOUND SYSTEM SOLUTIONS

# SMALL HOUSE OF WORSHIP

### Elevate the worship experience

#### High-performance audio, low-key looks

Our installation-dedicated loudspeakers are acoustically and aesthetically matched, so whatever combination of products you select, your system looks as good as it sounds – blending into the architecture while filling the room with superior audio quality.

#### Flexible options to suit your space and budget

We offer one of the industry's largest portfolios of product options, a range of choices to precisely address spaces of every size and shape with uncompromising performance – from ceiling speakers to line arrays.

#### Get your message across clearly

Achieve a clean, natural-sounding mix for voices and music, with the highest intelligibility and even coverage across every seat.

#### Ease of use for trained staff or volunteers

Production for services has changed a lot in 20 years, and your congregation's expectations are high. Our solutions achieve the ideal balance of sophisticated performance and simple operation, via intuitive software control interfaces.

#### An investment that lasts

Legendary performance and reliability from two of the most trusted names in HOW sound. We offer proven product solutions with the added value of the industry's best customer support.

# SMALL HOUSE OF WORSHIP

EXAMPLE FOR 2,000 – 4,000 FT<sup>2</sup> (600 – 1,200 M<sup>2</sup>)

## System overview

Loudspeakers from across our portfolio offer consistently subtle styling and exceptional audio quality, complimenting their environment while ensuring that every seat is covered with highly intelligible sound.

## System benefits

Excellent audio quality and efficiency, combining bi-amped EVF systems with C series amplifiers with FIR-Drive presets for performance optimization.

Protection against excessive power and overheating through tour-grade circuitry in C series amps.

System and group control and supervision through easy-to-use system software.

## DYNACORD | AMPLIFIERS

1x C3600FDi (mains)

1x C3600FDi (sub)

1x C1800FDi (fills/delay)

## ELECTRO-VOICE | LOUDSPEAKERS

2x EVF-1122D (mains)

1x EVF-2151D (subs)

2x EVU-1082/95 (fills)

2x EVC-1082/95 (delay)

## If you need it, we've got it

The EV-Innovation family of loudspeakers is designed to specifically meet the diverse requirements of installed house of worship systems. EV-Innovation currently consists of five system formats: compact two-way (EVC), horn loaded (EVH), front loaded (EVF), line array (EVA) and ultra-compact (EVU).

Models from each series may be mixed and matched for consistent performance across any installation, providing system designers with complementary building blocks to address the needs of a wide range of venues and acoustical challenges.
